

The Ho Chi Minh Trail

The Ho Chi Minh Trail was a strategic supply route running from Laos to the front line of the Vietnam War; allowing North Vietnamese troops fighting in the South to receive supplies vital to the war.

In this game you will attempt to transport supplies along the “Ho Chi Minh Trail”. You can move along the trail by correctly answering questions. There are four categories of questions; some are worth one point (allowing you to move one space), some are worth two points (two spaces), some are worth three points (three spaces) and some are worth four points (four spaces). The points available for each question correspond to their difficulty i.e. the one point questions are the easiest and the four point questions are very hard. In order to win you must be the first team to reach the end of the trail and deliver vital supplies to troops fighting on the front line.
